REMARKS

Claims 1 to 11 are currently pending.

The applicant would like to point out that the office action indicates claims 1-10 are pending in this application. Claim 11 is believed to be pending and patentable in view of its dependence on allowable claim 10.

Rejected claims 1-6 have been cancelled.

Claim 8 is objected to as the drawing is said to show a notch in a third mirror region but not in the claimed first mirror region. In accordance with the drawings and detailed description, claim 8 has been amended to define the notch as being in the third mirror region.

Claims 7 and 9 are objected to as being dependent upon a rejected base claim but are said to be allowable if rewritten in independent form including all of the limitations of the base and any intervening claims.

Claims 7 and 9 have been rewritten in independent form and are now allowable.

In view of the foregoing amendments to the claims, it is respectfully submitted that all of the claims remaining in the application are in condition for allowance. Early and favorable consideration would be appreciated.
